TECHNICAL SKILLS

Languages	Java, TypeScript, JavaScript, Python, C/C++, Assembly
Backend	Java (RESTful APIs, OOP), NestJS(ExpressJS), Node.js, Intra-mart/BES
Frontend	ReactJS, Next.js
Databases	MySQL, MongoDB, Oracle DB, MS/SQL
DevOps & Tools	Docker, Git, SVN, Github
Methodology	Agile, Scrum - experienced collaborating in structured development teams
Other	Embedded Systems (Arduino, ESP32, Raspberry Pi)

WORK EXPERIENCE

Fullstack Developer (Java & Node.js)

IVS Corporation - Full-time | 08/2025 - Present | Ho Chi Minh City - On site

Project: Web Development

- Built backend APIs using Java following RESTful design and OOP principles to support complex business logic for a Japanese client's platform.
- Integrated access control and workflow automation using Intra-mart enterprise framework (BES platform).
- Designed and maintained data storage using Oracle Database, including schema design and query optimization.
- Built UI screens with React (bes-app framework) to provide intuitive management interfaces for a Japanese client.
- Managed source code using SVN, collaborating with a cross-functional development team in Agile methodology.

Fullstack Developer - (Node.js & React)

Nexle Corporation - Full-time | 09/2024 - 07/2025 | Ho Chi Minh City - On site

- Developed and maintained scalable backend systems using Node.js (ExpressJS, NestJS), RESTful APIs, and TypeScript.
- Built responsive web applications using ReactJS and Next.js, focusing on reusable component design and UX optimization.
- Participated in database design and query optimization using MySQL and MongoDB.
- Deployed and maintained services using Docker (images, Docker Compose) in a containerized environment.
- Used Git for version control and collaborated in an Agile/Scrum team structure.

Embedded Intern

95IDEAL - Internship | 03/2024 - 07/2024 | Ho Chi Minh City

Project: Deabetic Retionopathy Detection

- Collaborated to build a Computer Vision product for medical diagnostics (classifying Diabetic Retinopathy stages from retinal fundus images).
- Researched integration between retinal fundus camera (Visucam) and Jetson Nano for data pipeline.

EDUCATION

Bachelor of Computer Engineering | University of Infomation Technology, HCMC | 2020-2024

- GPA: 8.28/10 - Graduated with Good standing
- Academic Encouragement Scholarship 2022

CERTIFICATION & LANGUAGE

- TOEIC: 575/990
- TOEIC Speaking & Writing: 250/400
